FLORA AND FAUNA OF THE EL VERDE FIELD STATION

Introduction

The El Verde Station is located on the northwest slope of the Luquillo Mountains in northeastern Puerto Rico (latitude 18°19'N, longitude 65°45'W). The 150 ha research area is located on land under federal control and is occupied under a use agreement between the U.S. Department of Energy and the U.S. Forest Service. The Station is operated for the DOE by the Center for Energy and Environment Research. The history of ecosystem research at the site goes back to 1963 and the Rain Forest Project under the direction of Howard Odum. The research area ranges from 250 to 500 m above sea level and has a mean annual rainfall of 3.5 m (138 in) and mean monthly temperatures between 21-25°C (70-77°F).

The field station is within the 11,330 ha Luquillo Experimental Forest, which is congruent with the Caribbean National Forest. The area was declared a forest reserve in 1903 and has been managed by the U.S. Forest Service since 1917. The Luquillo Mountains reach an elevation of 1,075 m above sea level and serve as the headwaters for six major rivers. The forest contains four life zones (subtropical wet forest, subtropical rain forest, lower montane wet forest, lower montane rain forest) under the Holdridge system of classification. In addition to its designation as an Experimental Forest, the Caribbean National Forest is also a Biosphere Reserve and contains a Research Natural Area. A wealth of background information is available including a good understanding of the taxonomy of most plant and animal

groups, 80 years of climatic observations, 30 years of data on forest growth and composition changes, complete vegetation, soils, and geologic maps, and 20 years of intense study of the tabonuco forest around the field station.

Floral and Faunal Diversity

Puerto Rico stands as the fulcrum between the east-west arm of the Greater Antilles and the north-south arm of the Lesser Antilles. The flora and fauna of the island contain elements of both regions. While the insular pattern of reduced richness of the biota is evident in Puerto Rico, the island still has 547 native species of trees, 13 species of bats, 249 species of birds, 41 species of reptiles, and 22 species of amphibians. The Caribbean National Forest contains 225 tree species, 82 vertebrate species, and a wide variety of invertebrates. During 20 years of field work at El Verde, there have been recorded 8 amphibians, 11 reptiles, 34 birds, 8 mammals, and over 2,100 species of invertebrates.

How to Use This List

Major groups are listed below in different tables because of the complexity of some groups compared to others. Only those species occurring within the El Verde Research Area are included. For plants, only the more commonly occurring species are given. A more complete list can be found in Odum and Pigeon (1970).

For invertebrates, we give information on the principal strata where they occur: soil (SOI), litter (LIT = dead organic matter resting on the ground), understory (UND = from the litter to the bottom of the

completely closed canopy of mature trees), and canopy (CAN = the closed leaf layer made up by the crowns of mature trees). These characterizations are based both on sampling data and knowledge of the general habits of different groups. The list of invertebrates is by necessity incomplete, and we anticipate that many new taxa will be added in the future. In particular, the holometabolous species (from Neuroptera on) are numerous and difficult to identify and should contribute more to the list as their taxonomy becomes clearer.

Information on abundance is given for the better-studied vertebrates. Classification as rare or abundant is subjective where actual densities are not listed, and these categories may reflect different absolute abundances for different taxa.

TABLE 1. The common plants at El Verde are listed below, with trees followed by shrubs. Scientific names are from Martorell et. al. (1981).

TREES

Phylum: Spermatophyta	Order: Sapindales
Class: Monocotyledones	Family: Sapindaceae
Order: Palmales	<u>Matayba domingensis</u>
Family: Palmaceae	
<u>Prestoea montana</u>	
Class: Dicotyledones	Order: Malvales
Subclass: Polypetalae	Family: Elaeocarpaceae
Order: Urticales	<u>Sloanea berteriana</u>
Family: Moraceae	
<u>Cecropia peltata</u>	
Order: Magnoliales	Order: Violales
Family: Lauraceae	Family: Flacourtiaceae
<u>Nectandra sintensis</u>	<u>Casearia arborea</u>
<u>Ocotea leucoxylon</u>	<u>Homalium racemosum</u>
<u>Ocotea moschata</u>	
Order: Leguminosae	Order: Myrtales
Family: Mimosaceae	Family: Combretaceae
<u>Inga fagifolia</u>	<u>Buchenavia capitata</u>
<u>Inga vera</u>	
Family: Fabaceae	Family: Myrtaceae
<u>Ormosia krugii</u>	<u>Myrcia splendens</u>
Order: Rutales	Family: Melastomataceae
Family: Rutaceae	<u>Miconia tetrandra</u>
<u>Zanthoxylum</u>	<u>Calycogonium squa-</u>
<u>martinicense</u>	<u>mulosum</u>
Family: Burseraceae	Order: Umbelliflorae
<u>Dacryodes excelsa</u>	Family: Araliaceae
Family: Meliaceae	<u>Didymopanax</u>
<u>Guarea guidonia</u>	<u>morototoni</u>
Order: Euphorbiales	Subclass: Sympetalae
Family: Euphorbiaceae	Order: Ebenales
<u>Alchorneopsis</u>	Family: Sapotaceae
<u>floribunda</u>	<u>Manilkara bidentata</u>
<u>Croton poecilanthus</u>	<u>Micropholis garcini-</u>
<u>Sapium laurocerasus</u>	<u>folia</u>
Order: Oleales	Order: Oleales
Family: Oleaceae	Family: Oleaceae
	<u>Linociera domingensis</u>
Order: Solanales	Order: Solanales
	Family: Bignoniaceae
	<u>Tabebuia heterophylla</u>

SHRUBS DOMINANT IN OPEN AREAS

Phylum: Spermatophyta
Class: Dicotyledones
Subclass: Sympetalae
Order: Rubiales
Family: Rubiaceae
Palicourea crocea
Psychotria berteriana

Phylum: Pteridophyta
Class: Filicinae
Order: Eufilicales
Family: Cyatheaceae
Alsophila bryophila
Cyathea arborea
Cyathea aquilina

SHRUBS DOMINANT IN SHADY AREAS (WITH A CLOSED CANOPY)

Phylum; Spermatophyta
Class: Dicotyledones
Subclass: Polypetalae
Order: Piperales
Family: Piperaceae
Piper aduncum
Piper tuberculatum
Pothomorphe peltata

Order: Urticales
Family: Urticaceae
Urera baccifera
Urera caracasana

Order: Sapindales
Family: Anacardiaceae
Comocladia glabra

Order: Myrtales
Family: Melastomataceae
Miconia prasina
Miconia tetrandra
Miconia racemosa

Table 3. Vertebrates recorded from the El Verde Study Area.

Name	Status
Class: Amphibia ¹	
Order: Salientia	
Family: Bufonidae	
Giant Toad (<u>Bufo marinus</u>)	
Family: Leptodactylidae	
Coqui (<u>Eleutherodactylus coqui</u>)	
Mottled Coqui (<u>E. eneidae</u>)	abundant (40,000/ha) ²
Tree-hole Coqui (<u>E. hedricki</u>)	
Forest Coqui (<u>E. portoricensis</u>)	
Ground Coqui (<u>E. richmondi</u>)	
Wrinkled Coqui (<u>E. wightmanae</u>)	
White-lipped Frog (<u>Leptodactylus albilabris</u>)	
Class: Reptilia ¹	
Order: Squamata	
Suborder: Lacertilia	
Family: Gekkonidae	
Upland Gecko (<u>Sphaerodactylus klauberi</u>)	
Common Dwarf Gecko (<u>S. macrolepis</u>)	
Family: Iguanidae	
Lagartijo Verde (<u>Anolis evermanni</u>)	
Puerto Rican Giant Anole (<u>A. cuvieri</u>)	
Yellow-bearded Anole (<u>A. gundlachi</u>)	abundant (2,000/ha) ³
Pigmy Anole (<u>A. occultus</u>)	rare
Lagartijo Manchado (<u>A. stratulus</u>)	abundant (25,000/ha)
Family: Anguidae	
Culebra de Cuatro Patas (<u>Diploglossus pleei</u>)	
Family: Amphisbaenidae	
Culebra Ciega (<u>Amphisbaena caeca</u>)	
Suborder: Serpentes	
Family: Boidae	
Puerto Rican Tree Boa (<u>Epicrates inornatus</u>) ⁴	rare
Family: Colubridae	
Ground Snake (<u>Alsophis portoricensis</u>)	
Class: Aves ⁵	
Order: Falconiformes	
Family: Accipitridae	
Red-tailed Hawk (<u>Buteo jamaicensis</u>)	
Broad-winged Hawk (<u>Buteo platypterus</u>)	
Sharp-shinned Hawk (<u>Accipiter striatus</u>)	rare
Order: Columbiformes	
Family: Columbidae	
Red-necked Pigeon (<u>Columba squamosa</u>)	abundant
Zenaida Dove (<u>Zenaida aurita</u>)	
Ruddy Quail-Dove (<u>Geotrygon montana</u>)	

Name	Status
Order: Psittaciformes	
Family: Psittacidae	
Puerto Rican Parrot (<u>Amazona vittata</u>) ^{4,6}	rare
Order: Cuculiformes	
Family: Cuculidae	
Puerto Rican Lizard Cuckoo (<u>Saurothera vieilloti</u>)	
Order: Strigiformes	
Family: Strigidae	
Puerto Rican Screech Owl (<u>Otus nudipes</u>)	
Order: Apodiformes	
Family: Trochilidae	
Puerto Rican Emerald (<u>Chlorostilbon maugaeus</u>)	
Green Mango (<u>Anthracothorax viridis</u>)	rare
Order: Coraciiformes	
Family: Todidae	
Puerto Rican Tody (<u>Todus mexicanus</u>)	abundant
Order: Piciformes	
Family: Picidae	
Puerto Rican Woodpecker (<u>Melanerpes portoricensis</u>)	
Order: Passeriformes	
Family: Tyrannidae	
Stolid Flycatcher (<u>Myiarchus stolidus</u>)	rare
Loggerhead Kingbird (<u>Tyrannus caudifasciatus</u>) ⁶	rare
Family: Mimidae	
Pearly-eyed Thrasher (<u>Margarops fuscatus</u>)	
Family: Turdidae	
Red-legged Thrush (<u>Mimocichla plumbea</u>)	
Family: Vireonidae	
Puerto Rican Vireo (<u>Vireo latimeri</u>)	rare
Black-whiskered Vireo (<u>V. altiloquus</u>) ⁷	abundant
Family: Parulidae	
Black and White Warbler (<u>Mniotilla varia</u>) ⁸	
Parula Warbler (<u>Parula americana</u>) ⁸	
Cape May Warbler (<u>Dendroica tigrina</u>) ^{6,8}	
Black-throated Blue Warbler (<u>D. caerulescens</u>) ⁸	
Prairie Warbler (<u>D. discolor</u>) ⁸	
Elfin Woods Warbler (<u>D. angelae</u>) ⁴	rare
Ovenbird (<u>Seiurus aurocapillus</u>) ⁸	
Louisiana Waterthrush (<u>Seiurus noveboracensis</u>) ⁸	
American Redstart (<u>Setophaga ruticilla</u>) ^{6,8}	
Family: Coerebidae	
Bananaquit (<u>Coereba flaveola</u>)	abundant
Family: Thraupidae	
Blue-hooded Euphonia (<u>Euphonia musica</u>)	rare
Stripe-headed Tanager (<u>Spindalis zena</u>)	
Puerto Rican Tanager (<u>Nesospingus speculiferus</u>)	abundant
Family: Icteridae	
Black-cowled Oriole (<u>Icterus dominicensis</u>)	rare
Family: Fringillidae	
Puerto Rican Bullfinch (<u>Loxigilla portoricensis</u>)	

Name	Status
Class: Mammalia ¹	
Order: Chiroptera	
Family: Phyllostomatidae	
Greater Antillean Long-tongued Bat (<u>Monophyllus redmani</u>)	
Fruit Bat (<u>Artibeus jamaicensis</u>)	abundant
Red Fruit Bat (<u>Stenoderma rufum</u>)	
Brown Flower Bat (<u>Erophylla bombifrons</u>)	
Order: Rodentia	
Family: Muridae	
Roof Rat (<u>Rattus rattus</u>)	abundant
Order: Carnivora	
Family: Viverridae	
Small Indian Mongoose (<u>Herpestes auropunctatus</u>)	

¹Common and scientific names from Philibosian and Yntema (1977)
